This style was created during the Sung Dynasty (1000 years ago), by a very famous warrior monk. The forms are well known for their speed! As the saying goes, "Quick as a hurricane, even quicker than lightning". But, speed alone didn't make this style so famous. The fact that almost every strike is aimed at a death point is what made this style one of the fiercest!

Sign up and pay fee to instructors to guarantee your spot in class, as well as your DVD, and notes!
